Seal (S) Shark (SH) Bird (B)	-	S	-	S	-	-	-	S	S	-	-	-	4 S

All protected and non-protected animals wherever possible are returned to the environment that they inhabit.
Only when all other avenues are pursued and following a risk assessment process that is approved by Senior Management, intentional lethal action against a (non-endangered or non-red-listed) predator is taken pursuant to the duty of care imposed on a person to ensure health and safety that requires the management of risks – including so far as reasonably practicable, eliminating risks to health and safety (Sections 17, 18 and 19 Work Health and Safety Act 2012).
In all cases of wildlife interactions, pragmatic actions to reduce the likelihood of reoccurrence are considered, recorded and implemented.

ESCAPES REPORTED
