Company Announcement

Australian Securities Exchange Limited

## **JUNE QUARTER 2010**

### **CASH FLOW COMMENTARY**

Net operating cash outflow was \$1.9 million in the June quarter 2010 compared to an outflow of \$10.1 million for the June quarter 2009. Outflows for the June 2010 quarter include the costs of the southern bluefin tuna (SBT) pellet feed trials which amounted to \$0.4 million (total to June 2010 \$1.3 million net) and it is anticipated that these costs will be recouped from SBT sales in 1Q 2011.

Management continues to be focussed on making operational changes to the Kingfish growout business in order to turn it into a positive cash flow business for the group.

The company has now achieved a balance between production and sales of kingfish. Targeted marketing strategies will lead to improved farmgate returns, which coupled with cost reductions, will give rise to further improvements in operating cash flows over the next twelve months.

Additional information about financial and operating performance will be provided in the 2010 full year results due in August 2010.
